Simple Size Chart

free Magento extension (Download link)

1. **System requirements**

Magento CE 1.4.2 - 1.9.x, EE 1.8.x - 1.14.x

2. **Installation through Magento Connect**

Get Size Chart Popup extension from website Go work to UpWork for FREE:

http://goworktoupwork.com/2016/02/simple-size-chart-pop-up-free-magento-extension

Extract the module package and you will see "Mambaweb_SimpleSizechartpopup-2.0.1" file inside.

Go to System Magento Connect Magento Connect Manager.

Log in with your admin credentials and go to "Direct Package File Upload" tab.

Browse "Mambaweb_SimpleSizechartpopup-2.0.1" file and upload it.

Check the screen and the module will be seen installed once you click "Refresh" from bottom of the page.

Click on "Return to Admin" link from top right corner of the page. Go to System→ Configuration. Look for "Size Chart Popup" option under the "Mambaweb Extensions" tab on the left hand side of configuration. If you find it, then the extension is installed successfully

3. **Manual Installation**

Get Size Chart Popup extension from website Go work to UpWork for FREE:

http://goworktoupwork.com/2016/02/simple-size-chart-pop-up-free-magento-extension

Unzip the module and copy the folder structure in your store. Your magento store installation should contain a folder structure like this:

root/magento/app

root/magento/js

root/magento/skin

Simple Size Chart Popup module contains a similar folder structure so you just have to cop module's folders and upload them on server in Magento store installation. Go to the administration area. Log in and go to **System → Configuration.**

Look for "Simple Size Chart Popup" option under the "MAMBAWEB EXTENSIONS" tab on the l hand side of configuration. If you find it, then the module is installed successfully.

4. Uninstallation through Magento Connect

Go to System   Magento Connect   Magento Connect Manager.

Log in with your admin credentials.

Find "Mambaweb_SimpleSizechartpopup" extension from the "Manage Existing Extensions" tab, select "Uninstall" from the drop down and click on "Commit Changes" button, the extension will be uninstalled immediately.

5. Manual Uninstallation

- Delete files and folders

app/code/local/Mambaweb/SimpleSizingpopup

app/design/adminhtml/default/default/layout/simplesizingpopup.xml

app/design/adminhtml/default/default/template/simplesizingpopup

js/sizechartpopup

/skin/frontend/default/default/sizechartpopup

app/design/frontend/default/default/layout/simplesizingpopup.xml

app/design/frontend/default/default/template/simplesizingpopup

app/etc/modules/Mambaweb_SimpleSizingpopup.xml

app/code/local/Mambaweb/Support

app/etc/modules/Mambaweb_Support.xml

Note: If you have integrated extension in your custom theme, you need to delete respective files and folders from theme

6. Deactivate the extension in case of emergency

Make sure you have uploaded all the files from the downloaded package. Then replace <active>true</active> with <active>false</active> in the following file:

app/etc/modules/Mambaweb_SimpleSizingpopup.xml

app/etc/modules/Mambaweb_Support.xml

Refresh the cache from admin panel and if something goes wrong, please submit a support

message to **mamaba.adm@gmail.com or http://www.goworktoupwork.com**

If you find something wrong, but still you need to access the **Admin Panel**, Go to **System →
Cache Management** and flush **Cache Storage** even if it's off.

If you are unable to access the Admin Panel, delete all the content manually, resided under
the following folders of your Magento root.

var/cache/*

var/session/*
